Coordination/ Keys developments

- *8 health personnel have died of Ebola Virus Disease (EVD) since the outbreak of the epidemic.
- On 7 October, the total number of cases is 71(see table above for details) of which 43 deaths, an overall lethality rate of around 60.5%. The latest confirmed case was on 24 September.
- As of 5 October, 1 121 contact cases had been recorded: 305 are currently being tracked and 816 others have already been discarded from the follow-up of 21 days.
- The Humanitarian Coordinator in DRC has allocated US\$ 2.5 million of the Common Humanitarian Fund (Pooled Fund), representing almost one third (30.1%) of the total budget of US\$ 8.6 million presented by the Congolese Government to fight the Ebola Disease. This amount will support the Government's response efforts in the areas

<p>of health, food security, water and sanitation.</p> <ul style="list-style-type: none"> • The World Health Organization (WHO), the United Nations Children Fund (UNICEF) and the Center for Disease Control and Prevention (CDC) have deployed their replacement teams in Lokolia. The official hand over date from those currently working in Djera region has been postponed to 7 October, originally set for 30 September. • Internal quality control operations on all examined-samples are taking place in the mobile laboratory in Lokolia. The mobile laboratory is technically supported by Winnipeg Canada Laboratory, especially in the areas of collection and transport of samples. • Two hotline numbers have been set up to get information on the disease: 081 08 000 20 and 099 99 710 05. An additional hotline for information on the prevention of the EVD is available using Tigo: 119.
<p>Security and Logistics</p> <ul style="list-style-type: none"> • Bad roads in the affected zone are one of the main logistic constraints disrupting routing of heavy equipment and other medical inputs necessary for the fight against EVD, as well as food distribution to the affected community. • UNICEF will support the maintenance costs of vehicles and motorcycles used in the response to EVD. • Permanent need for regular fuel supply to facilitate Ebola response activities throughout the affected area <p>Flights schedule</p> <ul style="list-style-type: none"> • UNHAS : Tuesday and Saturday : Kinshasa – Mbandaka – Boende - Kinshasa for passengers and limited cargo • ASF- France : Monday, Wednesday and Friday : Mbandaka – Boende - Mbandaka for passengers and/or cargo • MONUSCO : Support with cargo flights and helicopters for passengers and cargo • WHO and UNICEF : Receive and process flight requests in line with field priorities
<p>Ongoing activities</p> <ul style="list-style-type: none"> • The Communication Commission is conducting a cross-sectional survey to assess the level of knowledge of the population on the prevention of Ebola Virus Disease. Outreach activities continue in villages and churches throughout the affected area. • A team of veterinarians is sensitizing pigsty owners in Lokolia as to facilitate an ongoing sample-taking operation from pigs. A total of seven samples have already been collected in Lokolia. • The United Nations Mission in DRC (MONUSCO) has completed the installation of the planned eight large tents to accommodate the Ebola's response team in Lokolia. • To improve access to the affected zone, the rehabilitation of roads and bridges continues on Lomela – Lokolia axis as well as on the roads toward Iyolongo and Watsi Kengo. • Psychological supports to families of deceased persons as well as to persons discharged or cured of Ebola. Psycho-education sessions are being organized in different villages.
<p>Planned activities</p> <ul style="list-style-type: none"> • Preparation of a plan to operationalize the support of the DRC to the management of the Ebola outbreak in West Africa. The support will focus on the capacity building of experts to be deployed, the epidemiological surveillance strategy and on the operational research.
<p>Gaps</p> <ul style="list-style-type: none"> • Some provinces lack basic laboratory equipment to collect samplings on "alert" cases
<p>Funding</p> <ul style="list-style-type: none"> • Needs : USD 8,6 million • DRC Government : USD 1 million • Common Humanitarian Fund : USD 2,56 million approved by the Humanitarian Coordinator • CERF : USD 2,45 million (ongoing) • Gap : USD 2.59 million <p>-----</p> <ul style="list-style-type: none"> • ECHO: \$ 1.3 million awarded to MSF as part of the response to EVD in Equateur Province. This amount is part of the \$ 3.2 million of ECHO fund awarded to the MSF's "Pool Urgences Congo" project**.

**** MSF activities are not taken in account in the budget of USD 8.6 million.**
